

SEMEN ORDER PROCESS

- 1) You conclude the breeding contract with the stallion owner, alternatively you can also contact us, we will be happy to forward your request.**
- 2) Together with the stud contract you will receive the mare registration and the insemination contract. Please fill out the mare registration promptly, as well as the insemination order (however, this must be signed by the responsible veterinarian or insemination supervisor. In the case of insemination by an insemination supervisor or an stable inseminator , we need a copy of the certificate). Please send both of these back to us ASAP, so that we can already enter your data and the data of the mare in our system.**
- 3) If possible, give us a brief update 1 heat before the desired heat - so we can plan better.**
- 4) At the latest when the semen is ordered, we MUST have the mare registration and the signed insemination contract - otherwise no semen can be sent! This is a legal requirement that we must adhere to!**
- 5) International Shipments : For shipments to other EU countries we need at least 1 days notice in the morning (better 2!). This means that if you order on Monday, for example, the semen can be sent out on Tuesday.**
- 6) The semen is delivered in cool boxes with cold packs. Please send them back to us within 7 days. Otherwise you will be charged 20 Euros per box.**
